Summer Function

Many thanks to Sheri and Dale Parshall for hosting this year's summer function on Blue Lake and a round of applause to the coordinators for all their efforts! It truly was a "have your cake and eat it too" event with many treasured memories shared by your Skiyente sisters.

A topic of conversation was if you wear a higher SPF, you can be out in the sun longer. According to www.realsimple.com, the SPF isn't an indicator of *how long* a product protects you from the sun's cancer-causing UVB rays but *how well* it does. Remember, any sunscreen will be effective only if it's reapplied. Aloe Vera has been known to be a great cooling agent, but remember to keep Aloe Vera plants out of reach of dogs and cats.

Tubing fun!
